

## **Report Online Abuse**

Online abuse is a growing concern for people throughout Vanuatu, especially children who are most vulnerable. Vanuatu IGF supports a great internet environment for internet users when they go online, as nowadays there are many incidents relating to online abuse. People do not feel safe and some never do just by listening to bad experiences from their peers.

At Vanuatu IGF we want to work with everyone in Vanuatu to keep the internet safe and a great place for people to access information that transforms their lives and our country as a whole. However if someone is bothering you online, harassing you or bullying you, you can report the incident immediately on our website. With all your help we can work together to support victims of cybercrime to continue using the internet.

To report follow <http://www.internet.org.vu/reportonlineabuse.html>

Call us on +678 25568 if you need help or email [info@internet.org.vu](mailto:info@internet.org.vu)
